A Silly Burglar

At one windy night, a burglar with short hair and a moustache broke into a rich man's house. He was in a striped T-shirt, spotted trousers and a pair of trainers. He was extremely excited because everybody in the house was sleeping. He put many expensive things into his bag quickly and cunningly.

When the burglar was finding some more expensive things from the room, he saw a mini safe near him. Suddenly, he heard someone walking into the room. He was very nervous. So he put the mini safe into his bag hurriedly and wanted to escape. But when he tried to climb out of the windows, the house owner appeared.

The burglar was shocked and tried his best to leave the house. When he got out of it, he found that there was a bicycle, so he rode on it quickly. But his bag was too big and heavy. He fell down from the bicycle and cried painfully. The house owner called the police at once and scolded him, 'You, silly burglar'.

The police came and used a handcuff to lock the burglar. The burglar begged for forgiveness. But it was too late and nobody listened to him. He felt very regret.

How to keep Bishop Walsh clean and green

To keep Bishop Walsh clean and green, all of us have to work cooperatively with each other. Our campus is not as green and clean as what we have expected. Therefore, we ought to do something to solve the problems.

We use too many disposable eating utensils for our meals! We ought to bring our own cutlery instead of using the plastic eating utensils because plastic items can take up many years to decompose. After using our spoons and forks, we ought to wash them and keep them well in some containers for the next time. Besides, some students do not turn off the lights and projectors when they leave the classrooms. It will waste so much energy. We should put up posters on a notice-board to remind our classmates to save energy. Moreover, some students always let their hands wet after washing their hands. This may make the floor wet and it becomes dangerous if the floor is slippery. We ought to use our own handkerchiefs to wipe our hands after washing them.

By working together we can make a difference and create a beautiful campus that will benefit us all. We should try our best to keep Bishop Walsh clean and green.
